DETAILED ACTION

Receipt is acknowledged of the declaration filed on 10/17/2005, which has been entered in the file. Claims 1 and 2 are pending.

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on October 25, 2002. It is noted, however, that applicant has not filed a certified copy of the Japanese application as required by 35 U.S.C. 119(b). A translation of Japanese application number 310419/2002 does appear in the file, however, there is no certified copy of the Japanese application in the file.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

On page 1, the following paragraph has been inserted after the title:

Related Applications:

This application is a national stage application (under 35 U.S.C. 371) of PCT/US03/31881, filed October 8, 2003.

Allowable Subject Matter

3. Claims 1 and 2 have been allowed over the prior art of record.
4. The following is an examiner's statement of reasons for allowance: The prior art of record, taken alone or in combination, fails to teach or fairly suggest (re claim 1) an adapter comprising a reinforcing plate supporting the base housing, wherein said inner housing comprises an elongated bar and said reinforcing plate comprises a narrow band running generally parallel to the inner housing and wherein said reinforcing plate includes a lock member engageable with the miniature memory card inserted into the inner cavity; in combination with the other claimed limitations as set forth in claim 1.

While the art of record teaches various memory card adapters and memory card connectors, some including a lock member to hold the memory card in place, the prior art of record does not teach the specifically claimed structure of the reinforcing plate.

Without the benefit of Applicant's teachings, there is no motivation for one of ordinary skill in the art at the time of the invention to modify/combine the prior art of record to create the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The art made of record and not relied upon is considered pertinent to applicant's disclosure. Lin (US 7,341,194 B2), Yamada et al (US 7,314,388 B2), Horie et al (US 6,224,391 B1), Yang (US 6,075,709), Harase (US 5,155,663), Lee (US 7,025,637 B1), Bricaud et al (US 6,053,748), Liu et al (US 6,915,956 B2), Lin (US 7,052,295 B1), Ying et al (US 2007/0207676 A1), Kojima (US 7,172,430 B2), Shimada et al (US 6,776,631 B2), Knights (US 5,752,857), Shobara et al (US 6,203,378), Yasufuku et al (US 6,264,506) all teach memory card adapters or connectors.
